A. About Fellowship

A.1. What is Fellowship?

Fellowship, founded in 1978 by a group of committed men and women social activists, is a community-based, non-profit, non-governmental organization. As one of the pioneer organization in the Bhadrak district, Fellowship focuses on the women's issues. Fellowship is opposed to all forms of oppression, exploitation and violence against women. It subscribes to the principles of non-sectarian and social transformation.

A.2. Fellowship's Mission

Fellowship believes in a just and equitable society – a society free from violence, without discrimination based on gender, religion, caste, creed and colour. We strive hard to establish the rights of women and other marginalized groups like Transgender community, Sex Workers, Persons Living with HIV and Children by empowering them to take control of their lives, working in a collective manner with other groups, initiating and conducting Campaign to end violence against them.

A.3. Fellowship's Vision

We dream of a society free from violence, without discrimination based on gender, religion, caste, sexuality, nationality and physical disability.

A.4 Fellowship's Strategy

In Odisha, where billions of people live in poverty and illiteracy is rampant, women and members of the excluded community face greater risks. Improving their socio-economic condition requires strong and systematic commitment and favorable govt. policies. Fellowship's basic strategy stems from the fact that 'Once the poor and marginalized increased their economic condition and assets, they used these new earnings to improve the education and health status of their families'.

Our inputs are based on the premise that by empowering self-help groups (SHGs) through social empowerment program, women and marginalized in the grassroots can effectively combat violence on them. We believe that dispute resolutions through peers counseling, help reduce vulnerability and promote peace in the families. As such, we engage self-help groups in alternative dispute resolution programme called "Vikalpa Mahila Nyaya Panchayat" at the grassroots.

We also believe in collaboration with govt. department to ensure proper implementation of the schemes for the disadvantaged including women, transgender and other sexual minority. Where there is a need, we advocate with the govt. for amendments in policies.

B. Flashback – Major Achievements

B.1. Gender Sensitization Training in Schools:

Reformation in society with special reference to gender differences is possible only through gender sensitization. Gender and its accompanying power relations are built in all institutions of society be it family, educational institutions, work place, religious systems, beliefs, norms etc It is the process which brings about changes in the thought process of people who believe man and women as different entities and so have different functions to perform in socio - economic area. 'Gender' refers to the socio cultural differences between the males and females in terms of their strength, ability, performance, wage earning capacity and social acceptability etc. In fact the biological process does not discriminate between man and woman, but socially, women are regarded as weak, need protection and hence become subordinate to men.

Gender sensitization refers to the modification of behavior by raising awareness of gender equality concerns. This can be achieved by conducting various sensitization campaigns, workshop, programs etc. Gender sensitization refers to theories which claim that modification of the behavior of teachers and parents (etc.) towards children can have a causal effect on gender equality. Gender sensitizing "is about changing behavior and instilling empathy into the views that we hold about our own and the other sex." It helps people in "examining their personal attitudes and beliefs and questioning the 'realities they thought they know."

With the objective to sensitize youths on gender, sex and gender based violence, how it affects life and peace in society and how we can address the problem in the society; we conducted gender sensitization training programmes in 10 High Schools in Bhadrak and Bont Blocks. More than 2500 adolescents were sensitized under the programme.

The teachers act as facilitator to create gender sensitized environment. The teacher's role is to provide a safe space for children to express themselves and simultaneously to build in certain forms of interaction. While consolidating and constructively pushing the limits of learner's understanding, they need to be conscious of how differences are expressed. Along with the students, we also

make programmes to sensitize teachers on gender issues. And in this prospective more than 60 teachers were trained.

B.2. Maitryee Club:

It was another achievement of Fellowship towards the functioning of Maitryee Clubs in 10 High Schools in Bhadrak and Bont Block. The basic objective of functioning of such Maitryee Clubs is to create a knowledge banks at the school level by participatory sharing of knowledge and resources of the learners. These knowledge banks are used as resource centers, where students of both sexes mangle together to share their skills and hobbies like stamp collection, article writings , paintings, pomes etc. The concept is becoming popular among the students fast.

B.3. Violence Mitigation Committees:

Men and youth, after joining Violence Mitigation Committees, the resulted effect is very encouraging. Women from excluded communities hitherto facing violence alone and helpless are getting support from the VMCs immediately at their door step. Men are raising voice in support of women survivors of violence at appropriate forums. This has proved to be yielding desired result in making the police more responsible and accountable. The VMC not only provide alternative resolution in cases of violence against women at the occurrence but also intervene to wipe them out before a small matter becomes serious - a pro-active approach to end violence on women. Conscious efforts are made to sensitize and involve men and youth in the endeavor.

B.4. Alliance Building:

Alliance building among various stakeholders is the key factor in combating violence against women. Government organizations, local self government institutions, judiciary, non governmental organizations, police and media can contribute a great deal to end violence against women, when they work hand-in-hand. Workshops conducted at block and district level to familiarize the representative of the above institutions, with the provisions of Protection of Women from Domestic Violence Act, 2005. Regular meetings of alliance partners are held to strengthen the bond.

B.5. Social Inclusion of Minority Community:

As a part of Social inclusion of minority community, interactive meeting was organized with Muslim community leaders. A two-day training programme on Menstrual Hygiene Management was conducted for 40 adolescent and college going girls. From the feedback of the participants it was evident that the training

was very useful and relevant. On Protection of Women from Domestic Violence Act 2005, a training programme was conducted for women from the minority community on 24th February. 50 women leaders participated in this training programme.

B.6. Initiatives under Protection of Women from Domestic Violence (PWDV) Act, 2005:

The Act was promulgated in India, but it failed to reach the common people having no effort for public education. From 2007, we have been organizing training, public discussions, seminars and workshops in various parts in the district to raise awareness on the provisions of PWDV Act, 2005. As a result the people in the villages are getting benefit from the training and awareness programme. With the help of VMCs survivors are filing DIR directly with the Protection Officer. By the end of 2010 DIR was filed in the court and judgments of 17 cases were declared by the court.

B.7. Corporate Partnership:

The CSR initiatives were started in April 2008 by Fellowship aiming to create an enabling working environment for the communities residing within the plant and mine periphery of HCL at Ghatsila of Jharkhand, besides, with the support of IBM we initiated community action in addressing several social issues such as trafficking on women. In the year 2008, we launched a computer literacy program for 200 students in D.N. Girls' High School, Bhadrak.

B.8. Humanitarian Response:

Fellowship has taken lead role in the district reaching out to the vulnerable and affected community by responding to their needs in natural disaster situations like flood, cyclone and fire accident since a decade. This year in the month of September due to severe flood several villages in Chandabali and Dhamnagar Block were affected. We supported temporary shelter to 1000 households in Padhani, Dhusuri and Bhuinbruti GPs of both the Blocks. Similarly in fire accident cases we have supported tarpaulin sheets and ground sheets to 100 families in Bhandaripokhari and Tihidi Block of the District. And also we deployed two power boats for distribution of reliefs in the flood affected zones during floods.
